DETAILED ACTION

1. Applicant's Amendment filed on July 31, 2002 in response to Examiner's Office Action has been reviewed. Claims 71-150 have been added.

2. Claims 1-150 are presented for examination.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 25-28, 49-52, and 67-70, drawn to apparatus or steps of searching and displaying occurrences terms in documents in a database retrieving information, classified in class 707, subclass 3.

Group II: Claims 1-24, 29-48, 53-66, and 71-150, drawn to steps of producing a relevance value for the occurrence of a term in a portion of a document, classified in class 707, subclass 101.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as

retrieving and display information, and Group II has separate utility such as manipulating data structure to produce a relevance value. See M.P.E.P. § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
